ENLIVEN YOUR SENSES WITH THE BROADEST HEMP EXTRACT WITH CBG EVER FORMULATED.

By the drop, RECEPT absorbs rapidly into the bloodstream reactively promoting fast-acting, long-lasting therapeutic benefits. A lifestyle of wellness begins with pure, premium ingredients. The high-quality hemp extract in RECEPT's broad spectrum blend is sourced from 100% organically-grown hemp that's been nurtured and ethically farmed right here in America.

BROAD SPECTRUM HEMP BENEFITS

- Increased Attention & Productivity
- Helps to Clear Brain Fog
- Supports Mental Clarity & Balances Mood
- Promotes Mind & Body Homeostasis
- Relieves Stress & Discomfort

We took calculated measures to decipher how a hemp and phytocannabinoid product could be improved and made better. For us that started with expanding the phytocannabinoid and terpene profile as a way to develop a more well-rounded entourage effect.

HOW CANNABIGEROL (CBG) CHANGES EVERYTHING ABOUT THIS FORMULA.

Having a direct effect on the Endocannabinoid System and cannabinoid receptors, CBG provides a wealth of benefits, including its neuroprotective and neuroregenerative traits. It is an incredibly valuable resource for gut health, as its phytonutrients directly attack infectious bacteria.

A precursor or parent compound to many other phytocannabinoids like CBD and THC, CBG's potential effects on health and wellness have only begun to be tapped.

CBG is naturally occurring in the hemp plant in very trace amounts and has been found to be more prevalent in younger hemp strains. We take careful and complex steps to extract CBG for its use as a central ingredient during the formulation process of RECEPT.

BENEFITS OF CBG

- Completes the Entourage Effect
- Contains Anti-Bacterial Properties
- Promotes NeuroRegeneration/Protection
- Supports Bone Health
- Improves Mood & Gut Health
- Supports Rest & Sleep
- Promotes Natural Analgesic (discomfort relief)

EXPERIENCE THE ENTOURAGE EFFECT

The entourage effect is the concept that various compounds in the hemp plant work best when synergistically together, rather than being isolated. When this orchestration of compounds interact harmoniously, this promotes a more impactful health result.

The endocannabinoid system (ECS) is a vast signaling network of receptors that resides in all mammals. Present in and connected to the body's organs, glands, and tissues, the ECS regulates many physiological and cognitive body processes. Poor lifestyle and diet, exposure to toxins, and internal and external stressors can drastically imbalance the body.

By activating your body's receptors, your ECS helps create ideal homeostasis within the mind and body. Like a biological key, the nutrients from RECEPT's phytocannabinoids and terpenes interact organically with the ECS, boosting its effectiveness and helping to revitalize and maintain optimal well-being.

500MG PHYTOCANNABINOID DIOLS + 30MG CBG

FASTER ACTING, LONGER LASTING.

The health benefits of RECEPT's phytocannabinoids and terpenes are driven by a powerful nano-sonicated liposomal delivery method.

Using ultrasonic wave technology, RECEPT's active ingredients are compressed into ultra-fine-sized liposomes that easily absorb into the bloodstream, transport across cell membranes and begin interacting with cells, cannabinoid receptors, and the ECS within moments after dosing.

RECEPT's sonicated nanoparticles average between 15 to 25 nM (nanometers) in size—roughly the length of an antibody protein. This tiny nanoparticle range accelerates RECEPT's activation time and prolongs its therapeutic effects on the brain and body.

A safer and more natural approach to liposomal delivery, RECEPT's ingredients are ethanol free. Sonicated Nano-Technology is the next evolution in hemp extract delivery.

BEFORE SONICATION

AFTER SONICATION

FORMULATED WITH PEACE OF MIND INGREDIENTS

A major initiative when formulating RECEPT was to eliminate any traces of THC. Enjoy high-quality hemp extract without worrying about THC.

Suggested Use: Take one dropper (1mL) 1-2 times daily. Simply drop on or under the tongue and RECEPT begins absorbing immediately.

Active Ingredients: 500mg Phytocannabinoid Diols + 30mg CBG + 7 Active Terpene Blend (Limonene, β -caryophyllene, Geraniol, Linalool, Myrcene, Terpinolene, Humulene)

Other Ingredients: Purified Aqua, Glycerin (Vegetable), Lecithin (Vegetable), Peppermint Oil (leaf)

Supplement Facts

Serving Size: 1 dropper (1mL)
Servings Per Container: 50

	Amount Per Serving	%Daily Value
Calories	0.03	0
Total Fat	<1g	<1%*
Hemp Extract (aerial parts)	10mg	**
Cannabigerol (CBG)	0.6mg	**
